

Knowledge Organiser - Year 2 - Kenya

What I should already know?

Africa is a continent.

The United Kingdom is found on the continent of Europe.

The equator crosses Africa.

Africa is surrounded by these oceans: Indian Ocean, Atlantic Ocean

There are different climates over the world.

Knowledge

Kenya is found in east Africa.

The capital city is called Nairobi.

The people speak Swahili and English.

As Kenya is on the equator the climate is hot, sunny and dry for much of the year. They have a wet season when the rains come and the land bursts back into life.

Kenya has many habitats but the savannah is very famous because of the large animals it has: elephants, lions, rhinos, leopards, buffalo etc.

The Maasai people live in Kenya.

What I will know by the end of this unit?

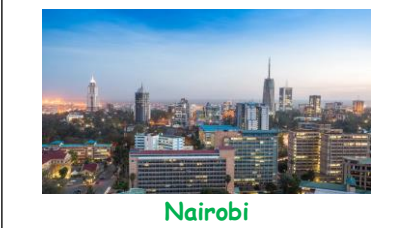

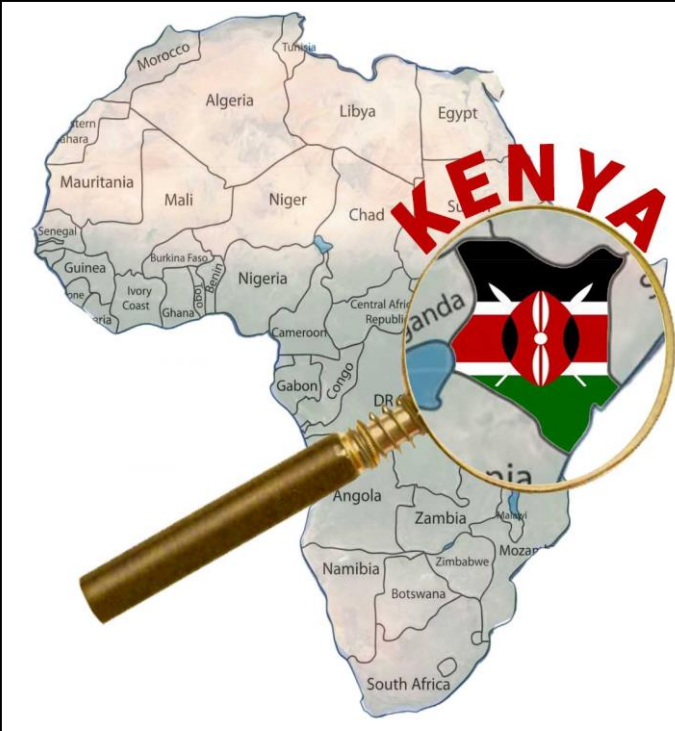

I understand that the climate of Kenya is different to the U.K.

Know that the habitats and animals found there are different to the United Kingdom.

Locate the United Kingdom and Kenya on world maps and name their continents.

I know that there are similarities between Nairobi and London.

I know there are some similarities in landscape but also differences.
